

2025

Mar 2025

FARSuN *first draft database* released to the community.

2026

Early 2026

Definitive FARSuN database delivered to the Sunspot Workshop team.

Mid 2026

Online community meeting on methods harmonization & versioning policy (SN & GN).

2026–2027

Deploy at ROB a FAIR, unified database integrating historical sources & modern network observations, with explicit provenance, machine-actionable metadata, and programmatic access.

2027

WDC–SILSO commissions new production pipeline for daily SN & GN (auditable processing, automated QA).

Major versioned releases of SN & GN with complete provenance, method docs, and DOIs.
