

March 2025

FARSuN *first draft database* released to the Sunspot Workshop Community.

2026 (Q2)

Definitive FARSuN database delivered to the Sunspot Workshop team. Online community meeting on methods harmonization & versioning policy (SN & GN).

2026 (Q3)

Sunspot Workshop on stress-test calibration chains, scale transfers, and uncertainty propagation.

2026 (Q4)

Deploy at ROB a FAIR, unified database integrating historical sources & modern network observations, with explicit provenance, machine-actionable metadata, and programmatic access.

2027

WDC–SILSO commissions new production pipeline for daily SN & GN (auditable processing, automated QA). Major versioned releases of SN & GN with complete provenance, method docs, and DOIs.
